Nuclear Market Fan Applications

The nuclear industry utilizes fans in many different areas. Each application requires a customized fan that is specifically designed to optimize durability, dependability, safety and ease of maintenance. Some of these applications include:

- Motor/Turbine Cooling
- Nuclear Processing/Refining Facilities
- Reactor Cooling
- Hot Cell Pressurization
- Battery Room Ventilation (ATEX)
- Exhaust & Supply
- HVAC (General Ventilation & Air Handling Units)
- Various Safety Systems

Validation & Testing

Every fan that we manufacture for the nuclear market undergoes a rigorous testing and validation process to meet the industry requirements for vibration, air and sound performance. In addition, Twin City Fan & Blower tests all fans for structural and mechanical integrity. Our capabilities allow us to perform our testing in our AMCA 210 certified laboratory as well as our nuclear fan manufacturing facility.

Model TCVX
Adjustable Blade Vaneaxial Fan

Model BCS
Backward Curved High Volume/Pressure Fan

Special Requirements for Nuclear Applications

Twin City Fan & Blower has been supplying air moving equipment for nuclear applications for over 30 years. Our dedicated nuclear staff has the knowledge and expertise to ensure compliance with the most stringent industry requirements. We take great pride in offering our customers special customization and construction features required to meet industry standards.

- **Stainless steel materials**
- **Fabricating per ASME AG1 construction requirements**
- **Welding per AWS and ASME IX requirements**
- **Custom machining**

Quality Assurance

We pay special attention to the implementation and verification of our procedures to fully support the nuclear application requirements. This process allows us to record and verify each step of the manufacturing process and provide our customers with the highest quality products.

Common Products (Nuclear Facilities)

BC - Flat-Blade Backward Inclined Centrifugal Fan

BAE - Airfoil Centrifugal Fan

BCS - Backward Curved High Volume/Pressure Centrifugal Fan

RBA - Industrial Radial Blade Fan

TBNA - Turbo Pressure Blower

HIB - High Efficiency Industrial Backward Curved Fan

MBO - Heavy-Duty Pressure Blower

MBR - Heavy-Duty Pressure Blower, High Pressure Air Handling

BCN - Backward Curved Pressure Blowers

TCVX - Adjustable Blade Vaneaxial Fans

DCRU - Upblast Roof Exhausters

Model RBA
Industrial Radial Bladed Fan

Model HIB
High Efficiency Industrial Backward Curved Fan

INDUSTRIAL PROCESS AND COMMERCIAL VENTILATION SYSTEMS

CENTRIFUGAL FANS | UTILITY SETS | PLENUM & PLUG FANS | INLINE CENTRIFUGAL FANS
MIXED FLOW FANS | TUBEAXIAL & VANEAXIAL FANS | WALL MOUNTED FANS | ROOF VENTILATORS
CENTRIFUGAL ROOF & WALL EXHAUSTERS | CEILING VENTILATORS | GRAVITY VENTILATORS | DUCT BLOWERS
RADIAL BLADED FANS | RADIAL TIP FANS | HIGH EFFICIENCY INDUSTRIAL FANS | PRESSURE BLOWERS
LABORATORY EXHAUST FANS | FILTERED SUPPLY FANS | MANCOOLERS | FIBERGLASS FANS | CUSTOM FANS
